Our Story

Triple Company for Industrial Development is an Egyptian table-olive supplier based in Cairo, Egypt. We are preparing for international export of the approved product range for bulk, wholesale, food-service, retail, and private-label buyer discussions. As a newly established company, we are building our supply model through approved partner arrangements. Triple Company has invested in a dedicated brining line at our partner processing facility — now operational, as part of our ongoing investment in the facility's capacity (approximately 2,000 metric tons total). Further equipment upgrades are planned at the facility, with Triple Company continuing to invest alongside our partner as the relationship grows. Product specifications, samples, packaging, documentation, MOQ, pricing, and delivery terms are confirmed according to the product and buyer request. We are actively developing buyer relationships and will confirm the applicable commercial and documentation requirements during quotation.

Product Range

Full specifications, calibers, and packaging options for each product are available on the [product catalog](#).

- Aggizi Green Olives
